Help Sundance Rental Management, Inc.
Help you!

Hurricane Information

Before the storm

1. In the event of a hurricane, secure or bring inside all objects that could become a projectile in high winds. Please move all items on patios, etc. inside;
2. Have plenty of water and batteries ready; Supply list attached.
3. For additional information on Hurricane preparedness, visit:
www.nhc.noaa.gov; or www.floridadisaster.org;
4. Evacuate if you do not feel safe; Contact Sundance (via e-mail or phone) to let us know that you will be evacuating, and a good phone number to reach you at in the event of an emergency.
5. Close all blinds/drapes, DO NOT tape windows; if pre-cut hurricane plywood or materials are provided at the property, please put them up, if you know how to, or ask someone for help or instructions.

After the storm

1. Remember the office will most likely not have power, phones or internet for some time after a bad storm;
2. Detail all damage to property; and please take photos.
3. This list along with photos should be emailed to Sundance as soon as you can get through;
4. You may drop the list off at our office, but we ask that you have your list completed before you arrive at the office;
5. ****Written authorization by the home owner must be obtained prior to FEMA putting on a temporary blue roof****. Sundance, nor the tenant, are authorized to do so.
6. Please be patient as we will be doing the best we can do, and as fast as possible.

Tools and Other Supplies

You should have a basic tool kit with items you feel are necessary to make temporary repairs after the storm. Basics include: plastic sheeting, paper plates and plastic utensils, flashlights and a battery operated radio with plenty of spare batteries (or better yet a hand-crank radio), non-electric can opener, fire extinguisher, tent, matches, aluminum foil, plastic storage containers, plastic garbage bags and a small shovel. A corded phone (cordless phones require electricity) will help if you have phone lines but no power.

Water

Water should be stored in plastic containers. Store one gallon of water per person per day and plan on at least five days of need. Save your empty two-liter bottles during hurricane season to fill with water before a storm may hit. Fill bathtubs and sinks with water for sanitation use. Check them for leaks before the storm and if water is draining out, place plastic wrap over the drain. Washing machines can also be filled with water to use for washing hands. The most recommended water purification technique is boiling. Boil water for one full minute at a rolling boil then let it cool. If you are more than one mile above sea level, boil for three minutes.

Food

Store at least a three-day supply of non-perishable food. Select foods that require no refrigeration, cooking or preparation. Think about what kind of food you would take camping those are the types of foods that you need on hand after a storm. Many good foods come in ready-to-eat, non-refrigerated packaging. Small packages are a good choice because you will not have refrigeration for leftovers. Make sure you have a good stock of Sterno, a full tank of propane for your grill, or plenty of charcoal. Never use propane or charcoal indoors.

Special Items

Always remember to help family members with special needs. For children, you should have plenty of necessary baby formula, diapers, bottles and medications. Adults with medications such as insulin or other prescription drugs should have their prescriptions filled before the storm. Do not forget any denture needs and eyeglasses or contacts. You may also consider asking your veterinarian about a mild sedative for your

pets if they are anxious during storms. You should also have some form of entertainment for everyone, including books for adults. Keep important family documents safe and in a waterproof container. Items for consideration to keep safe are wills, insurance policies, bank account numbers, credit cards, your address book and a household inventory complete with serial numbers and pictures or video.

First Aid Kit

It is a good idea to have two first aid kits; one for your home and the other for your car. Your kit should include things like bandages, scissors, tweezers, soap, latex gloves, lubricant, assorted size safety pins and any non-prescription drugs deemed necessary. Stock plenty of mosquito repellent and "bug bite sticks" for relieving the itch of insect bites and stings.

Clothing and Bedding

Clothing and bedding items should be protected by covering them with plastic drop cloths, placing them in waterproof boxes, plastic bags or other suitable containers. Be sure to have work boots and gloves, rain gear, blankets or sleeping bags, lots of towels, hats and sunglasses readily available.

Selecting a Safe Room

Identifying a safe place to take shelter during severe weather is an important part of your plan of action to "be ready." Select an interior room, hallway or bathroom on the lowest level of your structure away from windows. Padding the area with mattresses or having a solid piece of furniture under which you can seek shelter is a good idea. Be sure to keep your disaster kit with you in your safe room, and close all interior doors and brace exterior doors if possible.
